Node.js & React.js Developer

Imam Tashbir Arrahman, lives in Jabodetabek. I can be contacted via mobile or WhatsApp at +62 821-2832-1689.

As a seasoned Node.js developer, I bring extensive expertise in crafting robust and scalable web applications tailored to meet clients' unique needs. With a meticulous eye for detail and a passion for clean, efficient code, I excel in architecting elegant solutions that prioritize performance, security, and maintainability. My proficiency encompasses the entire software development lifecycle, from requirement analysis and system design to implementation, testing, and deployment.

Work Experience

Back-end Developer • PT. Imkahfa Sukses Mandiri

I have been working with Node.js from 2020 to 2023 as a back-end programmer for TAMPAH (Tabungan Sampah) mobile app, a waster bank app, where I was responsible for creating dashboards, landing pages, and server-side coding. My expertise lies in writing clean code, debugging, fixing, and deploying Node.js code.

Apr 2020–Jan 2023

Back-end Developer • PT. Zona Edukasi Nusantara

I provided backend development services for various projects (including a learning management system mobile app), leveraging expertise in API development, database management, and system integration. I ensured efficient, maintainable, and high-quality code.

Jan 2023–Jan 2024

Full Stack Web Developer • PT. Al-Amin Indonesia Utama

I developed a comprehensive laundry POS web app using React.js for the frontend and Node.js for the backend, implementing reusable components, state management, and API integrations for a seamless user experience. I utilized HTML, CSS, JavaScript, and prominent frameworks to create innovative web solutions.

Jan 2024–Jan 2025
